ory, as your story indicates. The mental changes that sometimes occur in older persons are often mistaken for senility. The memory loss and difficulty in thinking in these cases are not due to senility: They are symptoms of depression, and if the problem is recognized, it can be treated. If mental changes

## MOVIE GUIDE FOR FAMILIES

**G:** "General Audiences." Film contains no materials most parents are likely to consider objectionable even for younger children.

**PG:** "Parental Guidance Suggested." Rating cautions parents they might consider some material unsuitable for children. It urges parents to inquire about the film's
